SOLUTION-DYED ACRYLIC

Evertru's most popular fabric, **Solution-Dyed Acrylic** features our best available performance to protect against normal wear and color fading.

Guaranteed with a premium 5-year limited warranty, this durable fabric is tough enough to handle outdoor elements, while keeping its soft-to-the-touch feel.

The image displays a vertical stack of seven fabric samples, each showcasing a different pattern and color scheme of solution-dyed polyester. From top to bottom: the first sample has a brown and tan herringbone pattern; the second is a solid tan fabric with a fine, regular weave; the third features a pattern of vertical stripes in tan, black, and white; the fourth has horizontal stripes in blue, teal, and white; the fifth is a solid teal fabric with a fine, regular weave; the sixth shows a complex pattern of interlocking squares in blue, teal, and white; and the seventh is a solid dark green fabric with a fine, regular weave. The text "SOLUTION-DYED POLYESTER" is centered in white capital letters across the middle of the stack.

SOLUTION-DYED POLYESTER

Our **Solution-Dyed Polyester** fabrics are made with 100% polyester dyed filament yarns to ensure deep and long lasting color performance.

Along with its soft feel and built in color performance, EverTru SDP fabrics are extremely durable and easy to clean.

These fabrics are available in standard or recycled form and are guaranteed with a 3-year limited warranty for UV & fade resistance.

PERFORMANCE TREATMENTS

EVERBLOC

Premium water and stain repellent treatment prevents common stains from ketchup, wine, dirt, etc.

ECOBLOC

PFC-Free treatment option repels water and spills from fabric for the most environmentally friendly performance.

EVERTRU DWR

Standard water repellency finish treatment provides surface protection and allows the fabric to stay dry for a longer duration.

WE'D LOVE TO HEAR FROM YOU!
